

Heating Picture

Our heating pictures are ready heating elements, which allow an individual room design, e.g. in the choice of the framework or the motive. The heating picture is fastened to the wall by four spacers provided and can be operated immediately. A picture, sized 600 x 900 x 1,5 mm weight 1,2 kg (without frame), 480 Watt can optimally heat up a room of approx. 20M².

Our heating pictures are not only complementary to conventional heating systems, they can also be a direct alternative, more economical both in the acquisition and in the maintenance. The pictures are provided with special motives, which ensure the optimal material compatibility and heat resistance. You will find a great variety of pictures and therefore have the possibility to design the most beautiful heater for your home.
